DNSSEC Progress in .UK

Roy Arends

Senior Researcher

DNSSEC in UK past & present

- Actively developed Standards: NSEC3 and Opt-Out

- Actively researched SOHO/CPE DNSSEC compliance.

- Funded major implementations
  - BIND, UNBOUND, OpenDNSSEC

- DNSSEC in .UK will use NSEC3 and Opt-Out.

- Will use OpenDNSSEC.

- Will NOT endorse local configuration of UK trust-anchors.
  - no 5011, no web-page with listed keys, no dlv, no ITAR
  - All through IANA and a signed root

- First UK zone, later the rest (nic.uk, co.uk, me.uk, org.uk, net.uk, etc)
